SUMMARY	The project consists of creating a database to store the orders received by the business, Meg's Cookies. From there, a GUI will be created to make the information in the database easier to view and understand for a nontechnical audience. The GUI will then be connected to the database, and additional features will be implemented into the GUI to further the data analysis capabilities of the user.
BENEFITS OF THE PROJECT	Increased data storage and analysis of prior orders to facilitate future orders.
PROJECTED SCHEDULE	1st week: design stage; Second week: database creation; Third week: GUI creation; Fourth week: connecting GUI and Database; Fifth week: final testing and error fixing.
PROJECTED BUDGET	$0.00
PROJECTED TEAM AND RESOURCE REQUIREMENTS	Minimal team and hardware resources required for this project; all work will be performed by a solo developer using freely licensed software resources.
